About Us

Our company was established in 1958 as a timber wholesaler and woodworking business, rooted in a family tradition.

Over the years, it expanded into a wide range of services in the furniture industry and today continues its operations as a group of companies.

With over 66 years of experience, we specialize in the mass production of home furniture, kitchen and bathroom cabinets, custom-made wardrobes, interior design, and decoration solutions.

We operate through wholesale, retail, and export channels, reaching 56 countries worldwide and securing a strong position in the global market.

In addition, we provide concept design, architectural drawings, implementation, and turnkey decoration services for commercial spaces, particularly in hotel, cafe, and restaurant projects. We have successfully completed prestigious projects across the globe, solidifying our reputation in the industry with a customer-centric approach and high-quality craftsmanship.

Our company continues to grow by embracing innovative designs and sustainable production methods, further strengthening its leadership position in the industry.

Mission

To enhance spaces by delivering innovative, aesthetic, and functional furniture solutions that beautify living and working environments. We are dedicated to maximizing customer satisfaction through bespoke design and implementation services for cafe, restaurant, and hotel projects. By exporting high-quality products to international markets, we strive to be a trusted and leading global brand.

Vision

To be the leader in furniture manufacturing and project implementation by adding value to spaces with aesthetic and functional solutions. We aim to become a globally recognized, preferred, and inspiring brand through innovative designs and sustainable production methods. Our commitment to excellence drives us to exceed customer expectations in every project, solidifying our position as an industry pioneer.

What We Do

At the heart of our operations, we craft and transform spaces that define the future. Specializing in the manufacturing of high-quality furniture, we offer innovative designs that meet the demands of both residential and commercial environments. In addition to our manufacturing capabilities, we proudly export our products globally, delivering exceptional solutions to markets worldwide.

Our expertise extends beyond production; we specialize in end-to-end project implementation, providing bespoke services from initial design concepts through to turn-key execution. Whether it's creating bespoke interiors for hotels, restaurants, or residential spaces, or overseeing large-scale commercial projects, we apply the same dedication to excellence across all our endeavors.

With an extensive pool of resources and deep expertise, we offer tailored solutions that meet the unique needs of each client. Our ability to manage projects on both a local and global scale allows us to deliver superior outcomes. We take pride in our proven track record of successfully completing projects that not only meet, but exceed expectations, adding value to every space we touch and creating environments that inspire.

Our Facilities and Product Lines

We are a leading manufacturer specializing in a wide range of furniture solutions. In Istanbul, we produce kitchen cabinets, bathroom vanities, custom wardrobes, and bespoke furniture with precision and quality craftsmanship. Utilizing cutting-edge CNC machinery in our Lüleburgaz Organized Industrial Zone facility, we offer mass production of various furniture pieces, ensuring efficiency and exceptional quality across all products.

At our Kocaeli factory, we specialize in custom-made furniture and bespoke painted finishes, catering to the specific needs of cafes, restaurants, and hotels. From design to production, we provide complete product lines tailored to meet the unique requirements of the hospitality sector.

Additionally, in Bursa İnegöl, we operate two factories focused on the production of soft seating groups, where skilled craftsmanship and attention to detail are applied to create a wide variety of high-quality sofas, armchairs, and other upholstered furniture. Our commitment to excellence in every phase of production ensures that we deliver products that combine comfort, style, and durability.

With state-of-the-art machinery and an experienced workforce, we pride ourselves on our ability to meet the diverse needs of our clients, delivering custom solutions for residential, commercial, and hospitality projects with the highest standards of quality and craftsmanship
